◆

MONTEVIDEO.

All the barracas are busy here baling night and day, so as to get away everything before the 1st April when it is thought the new export tax of 2 per cent will come in force. This proposed increase of 2 per cent on imports and exports by the Minister of Hacienda has given rise to strong opposition to the new Government. Mr Bustamante, one of the legislators, has published in the *Ferro Carril* a very bitter letter against the Government, regretting the new measures as calculated to lead to troubles of which the Minister never dreamt. Tezanos has thrown up the *Patria Uruguaya* which till now was the Government paper, and gives as excuse his many occupations as Deputy. To me the whole affair looks like a split between President Santos and his old 'conferes, which speaks well for Santos, at least in the opinion of merchants and others with whom I converse. Rich and fertile though the Banda Oriental be, it is unequal to its present 'presupuesto;' the expenses of the Government must be cut down. If Santos could give more pensions and more Government employment he would be the most popular of presidents, but there is already a howl made about the proposed reduction of pensions; the widows of Uruguay are loud in their wail, and the more I study Oriental politics the more I am convinced that the country is drifting fast to another dictatorship, not so much to establish authority as to reduce the expenses of administration. New taxes, new loans and new reductions of salaries are not the measures most calculated to make any Government popular. The new Government has had much honest courage in bringing forward these measures, but the Chambers will oppose and then?—Why, we suppose the Chambers will be temporarily closed, for even the pay of the legislators is at the moment an important item to save in the present shattered state of the Oriental Treasury.

They say that owing to the scarcity of carts in the country there is much wool outside on the estancias. The Central Uruguay Railway, Mr McCall informs me, have established a service of carts of their own; the carts were brought out from England and bring the produce from Tacuarembo, to the Railway. All the sheepfarmers in this country are doing well, and the sheepfarming and estanciero business never looked better, yet fine estancia lands are to be had much cheaper than in Buenos Ayres, and Mr Booth of Maldonado informs me that out in his district there are splendid estancia lands to be sold at 3,500 Nat. gold dollars p. league, not 100,000 m|c of Buenos Ayres money. It speaks badly for the country to see such properties so very low. At a glance one sees in these figures the great difference between this country and Buenos Ayres. City and quinta properties around Montevideo are still cheaper: A square of land on the Union Road, overlooking the valley of Pocitos, with a magnificent view of the sea, is offered me for 50,000 m|c, and I am told, that on the flowery Paso Molino Road the most beautiful quintas are to be had for half price. Building, however, here is much cheaper than in Buenos Ayres, and you can build a capital house for 5 or 6000 Nat. dollars, that would cost 11 to 12,000 pats in Buenos Ayres.

The government steamer Fe has just returned with Mr Oldham from the Flores Island where he has been for the last week busily occupied, mending the government cable between the Island and the Capitania. The break was about 2 miles from the shore. The cable is 9 miles long and was laid some years ago by Mr Oldham for the Montevidean Government; it is of immense utility to the government owing to quarantine &c at the Island, in fact the government cannot do without it. The ss. Fe leaves again to-day to repair the cable between Montevideo and Buenos Aires, the government having kindly lent Chevalier Oldham the steamer for the occasion, free of charge, which seems to me to be a very important matter. Mr James Oldham, who has been for the last year on board the ss. Norseman on the North Brazilian coast, serving his apprenticeship to cable repairing, goes in the Fe as electrician with our old friend Capt. Golding who is chief of the staff. Cap Golding came out years ago with the first cable ever laid in the Plate. Mr James Oldham hardly counts 21 summers, he is about the youngest electrician that has ever yet taken charge of so difficult a task, but he comes of a good stock and we look for the best results.

Viscount Maua has been crowded with visitors all day who welcome him back to the Plate. As the Royal Mail steamer Avon is expected down here to-morrow, all my friends are up to their eyes in letter writing, although, for the life of me, I cannot make out what all their correspondence is about, there seems so little doing and so little to write on. Dr Fleury has very kindly invited me to visit the hospitals and some of the institutions. Yesterday I visited the native and British cemeteries. Nothing that I have ever seen in my travels ranks with the native cemetery here. People who die in Montevideo live again in marble in their splendid cemetery: we have nothing at all in B. Ayres to compare with it; some of the statues and monuments, I am told, cost over £2,000. The British cemetery is rather a sorry spot, betraying great neglect. We recognized the names of some few departed friends, but there was mighty little of the storied urn or animated bust about the place, and we left it with a sigh.

EMPEROR WILLIAM

The Emperor of Germany to-day enters on his 85th year, and the Germans of the Plate intend celebrating this great birthday anniversary in a worthy manner. Old Emperor William in his long career has endeared himself to his countrymen like no other continental Sovereign. He is the oldest Sovereign of his day, and we doubt if any other ever lived to such a hale old age as the present possessor of the German throne. Vigorous as a man of fifty, he mounts his horse and reviews his troops at the peep of day: Such vitality speaks volumes for the sober life of the sovereign. His life is a record of German history since the days of Napoleon the Great; he was a young boy when Jena was fought and the Tilsit peace was celebrated; he was merging into manhood when the cannon at Leipzig shook the world and the French Emperor. His career as a sovereign and as a soldier has been one of glory in war and wisdom in peace, and his name will go down revered to posterity when future generations will remember him as the connecting link of the old and new German Empires. No German can talk of his sovereign without emotion, and the women of Berlin weep as they see the majestic frame of their Emperor, under the Linden, burdened with age but yet resisting the onslaught of time and disease.

No other continental sovereign has as many sympathies as William, and he is alike beloved on the banks of the Elbe as by his distant subjects in the Far West or in the Plate. The Emperor more than once has seen proofs of the sympathies of River Plate Germans. His golden wedding, the attempts on his life, and the anniversaries of his birth have been so many opportunities for the Germans to shew their traditional love to their Emperor. The only sovereign in Europe that is as much beloved is Queen Victoria, and the sympathy between both rulers is well-known. Hand in hand both the Saxon and the Teuton lead the world on with the beacon of civilization, and both are distinguished by the special love of their respective sovereigns.

The Germans of Buenos Aires celebrate the birth-day of their Emperor in their clubs, and the Turn-Verein this evening will be the rallying point of the cream of German Society on the occasion. We join the members in a hearty bumper to the Emperor, and with them we wish that he may live to see many more years, and his country prosperous and happy.

LONDON LETTER.

(*From our own Correspondent*)

FINANCE.

February 17th, 1882.

The *Times* announces, without comment, that the Argentine Government is about to redeem the Treasury Bonds by drawing, and by tender, and at 100, if there are no tenders under 100.

The *Daily News* says:—

"It is reported that the Argentine Government will assume the right of redeeming the Nine per Cent. Treasury Bonds at par. Congress is not sitting, but the measure will probably be confirmed. These bonds were reckoned at 110 in the conversion scheme which lately fell to pieces. Nevertheless, they did not originally stipulate with clearness the terms of redemption, and it is thought to be within the power of the issuing Government to do so 'ipso facto.' The issue having been an internal one, moreover, those who imported the bonds cannot complain of a direct breach of national faith.

The *Echo* says:—

"In defiance of all experience as to the right of a Government to pay off bonds at par when there is no stipulation to the contrary, Argentine Nine per Cent. Treasury Bonds were a few months since run up to 129. The Government now decides to pay off at par at its convenience, and the price of the bonds is 103 net."

It is unnecessary in the present stage of the question to repeat the opinion prevalent on the subject amongst bondholders and merchants interested in the financial credit of the Argentine nation. What you will note is, that contemporaneously with the publication of the telegram from Buenos Aires announcing the renewal of the project to convert at par, the Treasury Bonds in this market rose 2. Other Argentine stocks have since risen more or less. But you quite understand that Argentine stocks are simply foreign stocks which, independently of particular causes relating to the local governments concerned, rise and fall with the current of speculation in the London money market. The present position of the money markets is not conducive to clearness in regard to the general values of foreign stocks or of the prospective or even immediate value of money. For the moment the optimists are triumphant. By hook or by crook the settlements in London and Paris have been effected without great disasters to professionals ei

ther as jobbers or brokers. The regular business gamblers have been protected by bankers, syndicates and brother capitalists. The losses of the irregular and private speculators must in the aggregate have been enormous, in France at least; but they are known only to brokers who if licensed have been 'carried over,' and if 'des coulisses,' have fallen unlamented. Meanwhile in London the power of the Bank of England has been proved. The raising of the rate to 6 per cent. has within a few days brought into its coffers a million sterling from America, France and other countries, and half a million from the provinces. Its position in regard to reserves is better than it has been for months. Loans are effected easily at 6 per cent, and good three months' bills are now being discounted at under five per cent. There is no doubt that as a mere question of supply money is easy, but it is not everyone that can get it at anything like those rates. As a question of confidence the position of affairs is not so favourable as it might seem. The Banks both in England and France appear strong by the influx of private securities as well as cash deposits. But what the outside world can never know is what are these securities and for what reasons are the deposits made? Obviously at the present juncture they must represent in one way or another heavy sales of stocks and withdrawal of balances from other places to prepare for emergencies. As a matter of fact, whilst this money pours into the Banks of England and France, there is no legitimate business done at the Stock-Exchange of either place beyond what is required for settlement and the speculative investments of capitalists who have taken advantage of the recent fall in prices, and whose interest it is now to paint everything 'couleur de rose.' The Stock-Exchange mind is by nature sanguine, and engrossed in its immediate purposes it is apt to look upon a low bank rate as the final proof of the stability of mundane affairs. Most people know that it is not so. Surely no place has suffered more than Paris in the late crisis, and the Bank of France was absolutely unable to get up the rate beyond five per cent., and in the open market it has been four. In London it has been six and seven per cent. and more. In Berlin the rate has been the same as in Paris, whilst in Belgium the Bank raised its rate at one time as high as nine per cent. The bank rates simply represent the increase or diminution in the supply of gold. The significance of a high rate is not in the demand itself but in the nature of the demand. The Bank rates will give no explanation on that point. For example the Bank of Hollend might have lately raised the rate to ten per cent. and no one would have been alarmed. Still it might have been a very serious sign. It is understood that the Netherlands Bank, with a note circulation of £16,000,000. had a few days ago not one million sterling in gold, and its standard is gold. The Dutch have confidence in their paper and take it very quietly. The real question for those not personally or momentarily interested in the money market is the trade of the country. If that is sound, the fluctuations in bank rates only affect the weak and the gambler. It is a question whether at the present moment things are not worse in the United States than in any part of Europe, and she has not been troubled with very high rates. During the last day or two the New York market has been agitated almost to the extent of panic by failures amongst speculators in produce. As much as 25,000,000 bushels of wheat have changed hands during the last week. Prices declined, and it was feared that the result would be very disastrous. The accounts to-day were better and no new failures have occurred, but there is an evident unsoundness in the States. Shipments of specie to this country still continue, but on a smaller scale, as the sterling exchange is falling below exporting point. The latest full returns show an immense falling off in the crops of the U. States last season compared with previous years. In some descriptions of grain there was a loss of 20 and 30 per cent. The potatoes as you know were a complete failure, but you may not be aware that at this moment we are returning past favours by exporting potatoes largely to our friends in America. In the last half of the year 1881 the excess of general exports from the U. States was only £13,000,000 compared with £32,000,000 in the preceding six months. The Americans, calculating on their productions of silver, amounting last year to the highest yet known, with the exception of that in 1877, and of gold, although sensibly declining, and of cereals, of which there was a short crop last year, have imagined that as feeders of the world in breadstuffs and precious metals they have the command of a great part of the trade of the world as far as prices are concerned. They have been rudely undeceived. From other countries England and France have easily supplied themselves with the cereals America had not got to send, and consequently the speculators, on the strength of high prices for American produce, have been ruined. In the same way they in America over-estimated the soundness of the business which has been inflated by the fatal abundance of gold, and they naturally assumed that American railways would participate in the general prosperity. Hence, they bought largely their own securities in the London market. The shares have not risen as was expected, and many people must have suffered heavy losses. Besides the indebtedness to this country has been increasing, and if not in specie, it will be paid partly in produce which will now have to come forward at ruinous rates. Already the prices of wheat in Liverpool either on the spot or for delivery in March are beginning to decline. The United States is a big place, but the world is much bigger; and the Americans will have to cut their coats, according to their cloth like other people. It cannot be said that either in the States or in Europe, credit has yet been much affected; but events in Paris and New York are at least warnings.

EDITOR'S TABLE

This is the 85th anniversary of the birth of the finest old gentleman in Europe, crowned or uncrowned—the Emperor of Germany. We salute our German friends on the occasion and trust their grand old monarch may long be spared to them.

The whole British community will be both glad and sorry to hear that Mr Ronald Bridgett, H. M. Vice Consul, has been promoted to a post in Portugal—glad that he is promoted, sorry that he must leave us. Never has H.M. had a more popular consular representative here. Legions of friends wish him the best success, and that he will soon be full Consul.

As the Press was not invited to the Rural Society's great meeting on Monday night, we cannot give all the particulars, but the main features of the gathering were some exceedingly pertinent remarks from several influential members in reference to the sleepy proceedings of the Committee on every occasion when they ought to have had their eyes open. Two cases were cited of lawsuits in which the Judges had called on the Society for an opinion as to camp practice, and the answers given were so absurd that the meeting gave a sigh between an æsthetical gasp and a well-bred groan when they were read out by a member. The Chairman said the 'dignity' of the Committee had been hurt owing to the members abusing them in other places besides the Society' own precints, but he was told there was no intention of hurting anybody's dignity, and a sweeping reform was necessary in the whole 'modus operandi' of the Association. Dr Pellegrini spoke in reference to his efforts in Congress to have the ridiculous and vexatious export tax swept away: he lost by only one vote, and he declared that if the Rural Society had helped him instead of looking on with folded arms, he would have won by far more than one vote. All the resolutions on the paper were passed. There was some refreshingly plain speaking at the meeting, and it is possible some reform may come of it, but we are not very sanguine. The Committee named at the meeting to carry out the reforms are just the men for the task—Messrs Luro, Pellegrini, Senillosa, Uribelarrea and Molina.

The fizzle about Ferrari's statue in the Exhibition has ended just as it should. The Banda Oriental Committee and the Fine Arts Committee both protested against the absurdity of covering up the Lion to please any section of the community, and the Exhibition Committee have very wisely withdrawn from their false position. The whole affair has been a truly ridiculous display. It is said Mr Ferrari will alter the statue. We hope he wont.

Judging from the telegrams, political things in Montevideo are decidedly lively, and the new Government has some stiff work cut out for it. General Santos is ill with a stitch in his side and we hope it will save him the proverbial nine.

The Exhibition is going along swimmingly, crowded every night. There were 1,200 persons at $20 m|c each in the concert hall on Monday evening. The robberies have commenced already. Several rare books have been stolen from the Mexican section. Much fun and laughter was caused by a 'heavy swell' who flopped his elegant person into a chair on the edge of the lake and went, chair and all, head foremost, into it: he retired amidst the most deafening ironical cheers.

The 'Comisario' of the Resistencia Colony understands his business so well that the colonists have appealed to the National Government. We thought Congress had suppressed all these colony Comisarios, who appear to be all tarred with the same brush.

A morning colleague is very hard on the statues in the vestibule of the Exhibition, which are certainly neither things of beauty nor a joy for ever. He proposes that they be handed over to Biekhert, to cut them up for beer tables.

Over 9000 adults and 3800 children attended the Exhibition on Sunday, and the receipts were $111,000 m|c.

Owners of National lands in the Fifth Section will be interested in learning that the time for proving their title has been extended to April 30th.

The buildings at the new Stud Farm at Santa Catalina will be finished by the middle of July and will cost 620,000 m|c.

A most disgraceful robbery was perpetrated in Calle Artes on Monday, where a poor lady rushed into the street screaming, as her husband had just dropped dead from disease of the heart. A crowd at once rushed in to help her, and some heartless scoundrel amongst them stole $1500 m|c from the pocket of the corpse, all the money in the house.

The fire at the Amaral 'cabana' at Moron is a warning to estancieros. Precautions against fire are never even dreamt of in the camp, yet the blaze at Moron shows that they are required.

Dr del Viso, Argentine Minister to Rome, has returned from the camp in better health and will start for the Eternal City on the 24th. We wish him a pleasant voyage.

People are never satisfied. We were asked yesterday when the Poetry is to begin at the Exhibition? We dont know, and, personally, will not fret if it never begin at all. The Show is so good that even Dante or Byron would be 'de trop' in it.

There is a report in our colleagues that President Santos will visit the Exhibition soon. We doubt it very much, so soon after assuming the reins of Government in ungovernable B.O.

Our esteemed contemporary the *Rio News* gives the following about the burning of the Porto Alegre Exhibition, by which it will be seen that the report of the Exhibition Committee having had a hand in it was a gross calumny:—

"In the distribution of premiums and the closing up of the Porto Alegre Exhibition there seems to have been a great deal of trouble. Ten thousand tickets for the disposal of exhibits by lottery were sold. The distribution began on the 22nd ult. when the people became irritated and smashed the windows. On the 23rd the conflict continued, the Germans defending the exposition with arms. Several attempts to fire the building were frustrated, but in the evening the mob was successful and the building was burned to the ground, with all its contents."

Plaza Lorea is about to be remodelled on such an elegant and attractive plan that it will be the nicest square in town, in spite of the unaesthetical Tank.

Mr Ferrando's report to the Lord Mayor on the condition of the Southern part of the city along the river is an important document and the key-note of a reform that is very badly required. Mr F. says that in that quarter of the town all the Municipal edicts about health etc are purely dead letters, as much so as if on the top of the Andes. This is a hard fact. Whoever takes a stroll along the river bank to the South feels as if he had dropped on some seedy town up the river, 100 leagues from the capital. This neglected part of the city will be the next to be taken in hands.

There was an unusual crowd of visitors to the Penitentiary on Sunday—over 500, Most of them went simply to inspect the place, not to see the prisoners. The grand 'pozo absorvente' is finished. There are 854 prisoners in the jail just now.

The eating doll which receives food in its mouth that disappears to come out at the soles of the feet is a novelty introduced with other holiday toys this season in Paris.

Ship captains should take a look in the Exhibition at Mr d'Alfonzo's 'Artificial Horizon', of the value and utility of which he has certificates from several masters of the Italian merchant navy.

A young gentleman who wanted to marry on 1500 m|c per month took to abuse of his intended father-in-law when the old gentleman expressed a decided opinion that the amount was not sufficient to keep the pot boiling, much less to keep it full. The lady's big brother heard of this, met the wooer outside the Concepcion Church on Sunday evening, and gave him such a thrashing that he had to retire to repair damages.

The *Patria* of Dolores says that half the population of that town have left it to visit the Buenos Aires Exhibition. They are all as welcome as flowers in May.

According to what is said the tumults are of a serious charater, and the forces of the local authorities are insufficient to suppress them.

Patacones	25.—
Cedulas A	100¼
Do E	86
National Bank Shares	120

The gold operations of the morning were very limited, but some small sales were effected at a fraction over par. For cash about 12,000 were sold at 25.02; more was offered but no takers. It is hard to get rid of specie even at 25.01, and only now and then some party steps in to buy gold for immediate wants. The market, nevertheless, was somewhat recovered since yesterday.

Cedulas are very dull. Series A is fixed at 100¼, but operations in same are few and far between. The Series E is being neglected more and more; the scrip was weak, and prices do not maintain themselves. It was expected that the speculators in Series E would soon silence the National Bank Shares, but after a fortnight of activity the horse has got tired and the Cedula business has relapsed into its former normal sphere. Some Series B was sold to-day at 99, showing no change in the ordinary quotation.

National Bank Shares again drew all the attention of the market. To-day we remarked many more buyers than yesterday, but sellers far outnumber them. As happened yesterday very many are busily occupied in buying back what they sold before. The operation is a profitable one, if everything passes off smoothly at the end of the month. Operations to-day were not as large as yesterday, but the excitement at the ring is still very great. Contrary to expectations the stock dropped to-day to 118½, but buyers drove prices up 1 in a short time. Outsiders wish to see the stock down to 110 o/o, in order to buy, and after all it may suit the Italians to let the market drop to that figure, in order to attract the public. All wonder who are these now operating in the shares, but it seems pretty generally admited that all the operations are being carried out by the Italians themselves, which is consoling in view of the very heavy differences involved in the month's liquidation. So far the holders have completely changed the situation of the market, and the interest felt in the stock by the outsiders is increasing. Up to the present the opinion is that the stock is dear at 115 per cent.

There is some talk of establishing a branch of the Commercial Bank of Montevideo in Buenos Aires. The Bank in Montevideo is overflowing with deposits enjoying no interest and finding no investment, as there is no market down there. A branch here in Buenos Aires would do a roaring business.

Mr Saturnino Unzue and family leave in the Niger for Europe. This is Mr Unzue's first trip to Europe, Some time ago he went to Montevideo and was saved by an editor from drowning, when his boat capsized. Dr Del Viso also leaves for Europe in the French packet. We wish them all a prosperous voyage.

Four square leagues of land have been finally sold in Itaio at the rate of 75,000 m/c per league.

A countryman has bought 25 square leagues of land above Monte Caseros on the Upper Uruguay at the rate of 1,000 pats per league. The land is covered with wood and beautifully situated.

A fine estancia of 3 square leagues of land, known as the Corralito, near Salto, B.O., is offering for sale at 100,000 pats. This is one of the finest properties in the Uruguay.

Mr Carranza, Argentine Consul General in New York, was welcomed on Change to-day; he arrived up this morning in Jupiter, also Mr Fischer, manager of the Central Argentine Railway, who left this afternoon for Rosario. Mr Schmidt, of San Nicolas, was also welcomed on Change,

Dr Pellegrini at the Rural Society meeting last night stated that at next Congress the export tax on all Argentine produce will be abolished. All the reforms proposed at Baltar and Quesada's in the Rural Society will be carried out.

It is rumoured in Montevideo that in the event of Sr Cuevas resigning the Ministerio de Hacienda. Dr Terra will be asked by President Santos to hold the portfolio.

Capt. Spurr, Commander of the Villarino, was welcomed on 'Change; he reports everything flourishing down on the Rio Negro.

The purchase of a magnificent sugar estate in the Province of Salta by Mr Fleming is reported; 72 square leagues, reserved price. Sugar lands are coming to the front.

General Roca visited the Exhibition on Sunday and visited Bieckert's grotto, where the beer is as good as in Germany. Mr E Bieckert had a long conversation with the President, and champaign was served to the guests.

The Deuda Amortizable will soon be quoted on the Buenos Aires Bolsa. The Camara Sindical has granted the petition in the matter.

Visitors to the Exhibition say that there should be fair play in the lighting by gas and electricity. When the electric light is working, all the gas lamps should be put out, so that people may judge of the effect. The idea is a good one, and should be followed up.

Some exchange done to-day at 49½; small amounts.

Discounts as usual, and Montevidean exchange at ⅜ per cent premium.

At afterhours a stand-from-under feeling was rampant in National Bank Shares. Over 5000 shares were sold at fluctuating prices. The market opened firm and rose gradually to 119¾, but shares and shares were showered and prices went down rapidly to 117½ for the end of the month. Many mark 110 o/o before the end of the week, and everything points that way. The excitement in the market continues.

The Sales at afterhours were—
Gold—
Nothing done.
Cedulas—
Sellers at 86 for end of month, and buyers at 85½.
National Bank Shares—
For March 31st 3,000 shares 118½-19¼-½-¼ to 119
For April 30th 1,000 shares 120-120½-¼ to 119½-120

As holders of lands of the National Government in the V. Section have not all as yet presented their titles to the National Land Office, the National Government has issued a decree extending the final term of presentation till the end of April. Holders of the titles better beware and present their papers as soon as possible, in order to avoid annoyance and complications.

A native colleague announces that a company has been formed to work the well known mines of M M Fernandez in Famatina. The capital of the new company will be $3,000,000 fts. The mines in question must be exceedingly valuable, to judge by the capital of the Company, and there is no doubt that there is a great mining future in the Republic.

Dr Calderon is now negotiating the establishment of a branch of the Mortgage Bank in Santiago del Estero. If all these new branches be carried out in the Provinces the Hypothecary Bank may be henceforward considered a great National Mortgage establishment and no longer a Provincial concern Where the Bank needs "Sucurseles" is in Mercedes, Chascomus, San Nicolas, and several other thriving towns in this Province.

The Provincial Bank discounted on Monday last six and a half millions paper money.

Further advices from Pernambuco report that the sugar market is still rising; rates at 5$000.

On the Montevideo Bolsa there are buyers of the Deuda Franco Inglesa, but no sellers. As there may be holders of these bonds in this market, the fact may interest them.

The reported sale of 9,000 cow hides in Guaviyu at 7$20, it appears, is not confirmed.

Referring to sugar industry in the River Plate, the "Liverpool Journal of Commerce," in a recent issue, stated as under:—

"Writing on the River Plate sugar industry, a Buenos Aires correspondent of the "Economiste Français" affirms that after repeated trials of English sugar-making machinery, opinion has turned entirely in favour of French machines, and the Liverpool firm who have been supplying the former have withdrawn their agent."

We are glad to observe that Messrs Fawcett Preston, & Co., of Liverpool, did not permit this assertion to pass without rectification, as will be seen from the following, which appeared in the same journal:—

"Referring to the statement in ours of yesterday, published on the authority of a French newspaper, as to the sugar industry in the Argentine Republic, we are informed by Messrs Fawcett, Preston, & Co., of this city, the firm alluded to, that this statement is absolutely incorrect in every particular. They have not withdrawn their agent from the River Plate. The sugars made with their machinery exhibited at the recent rural exhibition in Buenos Aires, in competition with the sugars made with the French machinery, gained the first prize, nothing higher than the third prize having been awarded to the sugar made with the French machinery; and the firm have at present in course of execution very large sugar-making machinery for the Argentine Republic—larger, in fact, than for many years past."

The mails from Rio bring the following news:—

Rio de Janeiro, March 9th

Exchange—

Contrary to general expectation, the tendency of Exchange since our last review has been always upward. Banks have advanced their rate successively to 20⅝ on 27th ult., to 20¾ on 4th inst., to 20⅞ on the 8th, and since then the English Banks have been drawing on their Head Offices at 21d.

This movement has been principally the consequence of the activity at the Northern ports, where Exchange has ruled much higher than here, affording a margin of profit to the Banks having branches there. Takers of Exchange, besides, having shown the usual unwillingness to take with a rising market and money is very dear.

Due to the absence of Produce, the entries of Coffee being only nominal in quality, as the railways are completely interrupted, there has been little private paper off ring. Drawers have, however, had to submit to the consequences of takers being very indifferent to doing business, and there has been paper given at 21⅛.

The position of our market is altogether anomalous. as Exchange is firm, whilst the stock of Coffee here and in Santos is much under 100,000 bags, and the sales during the last ten days have been insignificant.

Heavy rains still continue and our railway is still closed by land slips. Supplies of produce are consequently next to nothing. Money is still going north for Exchange operations, and our Bolsa drags heavily with easier prices.

Coffee remains at 10 cents in the United States and the Dutch Sale on the 8th averaged 31 cents., or 1 cent. above valuations. Still, no consuming markets respond in proportion to the blockade here and consequent rise of 500 reis per arroba in our trifling stock and wretched assortment.

Sales in Stocks and Shares comprise:

Coffee—

In consequence of the cessation of supplies from the Interior, and the low grade of the remnants that are left on sale, all enquiry is temporarily suspended, the market is in a state of stagnation, and prices absolutely nominal.

Receipts have averaged barely 1,500 bags per diem, against 3,840 in the previous fortnight, and against 16,400 at corresponding period of 1881.

AT OUR MART
51—San Martin—51

We will sell to the highest bidder over and above the stipulated basis, for cash, 8½ league of splendid camp, in the department of San Justo, (Province of Cordoba). Advices we have received about the above camp are most flattering—so let those who wish to secure good land cheap, look alive.

The shape of the lot, its rich pastures, and the liberal conditions on which it is offered for sale (in one or more lots), place it within reach of agriculturists, who require small lots of excellent land.

The low valuation put on this land compared with the prices obtained by the Government, 3,000 pats, is the best recommendation we can offer.

PARIS LETTER.

(*From our own Correspondent*)

Feb. 8th

Nearly all the dead and wrecked connected with the financial crisis have been disposed of; not many more suicides are expected as the old way of balancing new debts. Not a few of the stock gamblers folded up their tents like the Arabs, and as silently stole away. One sprig of nobility who had four millions of francs to make good, sold his house and lands, the family jewels, borrowed money from his wife's friends, spoiled the Egyptians generally in the capital, and then bid his native land good night. I am aware of a large army contractor whose brother's wife gambied in bulls and bears on the sly, and finished by owing three millions; her husband knew nothing about his wife's doings, and when he did, he simply wrote to her and his own relatives: 'decide between two dishonors: either aid me to escape the pecuniary responsibilites in which I am plunged, or I shoot myself within 24 hours.' The widow Prat of Marseilles, the wealthy owner of a liqueur establishment, lost 700,000 fr: she wrote a cheque for the amount at noon, and before dinner accepted the hand and heart of her head clerk. Less poetical was the conduct of a retired grocer; he gathered some chairs, placed them in the middle of his drawing room; he then set fire to the pile, with the depreciated scrip of the Union Generale Bank—the cause of all our woe. Of the several lamentable suicides—ten are recorded, brought about by the failure of that bank, nine were committed by revolvers; the tenth was a maiden lady, who dressed herself in a travelling costume, placed the shares under her arm, and jumped from a fourth story into the street, killing the dog that was leading a blind beggar. A popular critic recently deceased, left 300 Union Shares, then worth 3,100 fr. each; his heirs instead of at once making hay while the sun shone, went to law, and the case is still 'sub judice,' and the scrip of only nominal value.

The smash falls principally on the Upper Ten, who sought in stock speculation an antidote against ennui; but the peasantry, the artizans, the trading classes, have not been affected, hence, the national richness is sound. The tempest will do good, by teaching people to no more count upon investments yielding from 15 to 50 per cent, but to be content with 5 even 8, and never to despise the sweet simplicity of the three per cents.

For the moment Gambetta has gone from our gaze like a dream; were it not by the running fire kept up by the intransigeants against his memory, he would be as much forgotten as Mac Mahon, de Broglie, and other saviours of society. It remains to be seen, if in voyaging in other lands, Gambetta will experience that absence makes the heart grow fonder. His role is not by any means finished, despite his few blunders and bunglings. He will not be anything the worse for having passed through the fiery furnace. The reform bills that the ex-Minister contemplated bringing forward, and now published, do not display any profound ability. The present Cabinet well reject what is questionable in them, and appropriate what is good; by so acting, and salaaming will the Chamber, the de Freycinet Cabinet ought to be hold together for a few months. Even the Turks, who rejoice at Gambetta's downfall, as well as pious persons in general, attribute that defeat to the ex-Premier's proposition-abolishing public prayers for the Legislature to be endowed with what it sadly needs, wisdom. The materialist Minister Paul Bert, being no longer charged with the religious interests of France, returns to his dear studies—vivisections. Let dogs, cats, rabbits and guinea pigs beware.

The Chamber of Deputies has not signed the commercial treaty with England, but has granted another month to do so; the next renewal will be for a week. The representatives however, have formed two more new groups, a kind of tad-pole propagation that will require a political Linnœus to classify. To-morrow, let us hope for serious affairs, which up to the present only appears to realize the barber's promise of gratuitous shaving. Other evolution: the French have no intention of marching with or without England into the bowels of the land of Egypt. They have already enough of Mussulmans to civilize.

Professor Caro continues to lay all the evils of society at the door of the press. 'The world wants reviews, he maintains, not newspapers; wants critics like Villemain, Nisard and Sainte-Beuve, not reporters as Suetorius, Saint-Simon and Tallemant des Reaux. One of his colleagues, M Maillard, objects to the new necropolis and its mortuary railway being established at sixteen miles from Paris: such it seems would prevent all manifestations at funerals, as the police could lock the coffin in the train, and when political sympathisers were seated in the carriages, allow the latter to remain, and whisk forward the coffin waggon.

It requires not even the testimony of a rheumatic traveller to attest the deplorable condition of the Parisian tramways. The lines and 'materiel' cannot be worse, but due to expenses exceeding receipts. The cars will soon cease running, when the Omnibus Company will buy up the interest and raise fares. To defeat this 'ring' the Municipality has decided to compel the Tram Companies to execute their contract or to forfeit their rights: in the latter case, the City Council can then dictate conditions to the Buss Company, which is a gigantic monopoly. Monsieur hugs that phase of political economy. Indeed human beings in general have a weakness for all the plums in a pudding.

◆

IMMIGRATION INTO THE U. STATES.

The Bureau of Statistics furnishes an advance statement of immigration into the United States showing that, during the month of December, 1881, there arrived at all ports 40,545 passengers—of whom 37,037 were immigrants, 2,587 citizens of the United States returned from abroad, and 921 aliens not intending to remain in the U. States.

The total number of immigrants arrived from the principal foreign countries during the month of December, compared with the same periods the previous year, was as follows:—

From—	December. '881.	1880.
England and Wales	4.374	3.467
Ireland	2.011	1.514
Scotland	807	731
Austria	923	904
Germany	11.413	8,520
Norway	455	377
Sweden	1.650	892
Dominion of Canada	4.704	1.160
China	2.3o6	270
All other countries	8.394	4.109
Total	37.037	24,004

The total number of immigrants arrived during the year 1881, as far as reported, was 719,868. Of this number, there arrived from Germany, 248,323; England and Wales, 77,750; Ireland, 70,896; Scotland, 16,441; Dominion of Canada, 94,156; Austria, 19,667; Norway, 26,824; Sweden, 55,805; China, 20,628; all other countries, 86,375. As stated in the *Commercial Bulletin* yesterday, the steamship agents here anticipate an immigration this year quite equal to that of 1881. Their expectation is based upon advices from their head offices, and the companies are making arrangements accordingly. This amounts to a duplication of the average rate of immigration and must contribute materially towards an increase upon our ordinary growth of population. As these arrivals consist very largely of working population, the effect upon the national production must be important. As an element bearing also upon the labor market the significance of the movement is not to be overlooked. Ordinarily, such an increase in our industrial and commercial activity as has occurred within the last three years would have produced a relative scarcity of labour and an advance in wages; but this extraordinary influx of foreign labour cannot fail to act as a very effective check upon such a tendency. Such a large accession of productive power deserves to be regarded as a most material contribution towards the prosperity of the United States. What it implies respecting the countries whence the immigrants come, hardly needs to be mentioned. The fact that one-third of the entire immigration is from Germany shows how much military pressure and oppressive government have to do with this remarkable hegira. *N. York Bulletin.*

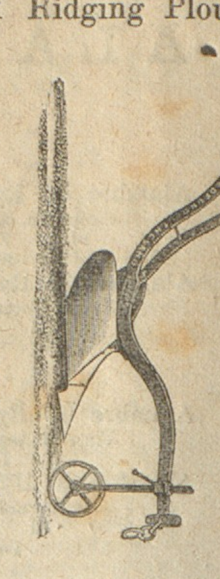
HOWARD'S CELEBRATED PLOUGHS

Howard's

Small Ridging Plough

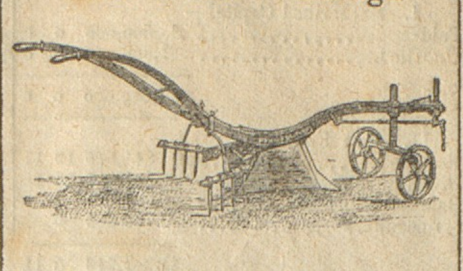


A small useful iron plough, fitted with a double mould board or earthing up body, and much used by maize and vegetable growers.

Weight ½ cwt.

Howard's

Water-Furrow Plough

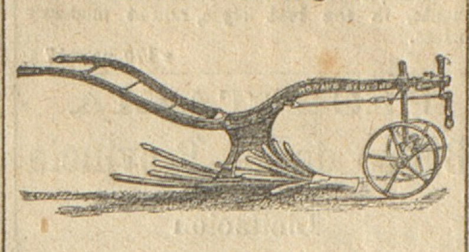


This is a modification of J. & F. Howard's Ridging Plough. It is used for making the water furrows for surface drainage on arable land; the peculiarity of its working is tha the earth thrown up on each side of the furrow by the mould boards, is moved away from the edges of the furrow and is harrowed down level with the field, a level surface is thus left for the Reaping Machine, and drainage is facilitated.

With steel breasts, weight 1½ cwt.

Howard's

Potato Ploughs.



With a pair of horses, this implement will raise three to four acres of potatoes in day; it leaves fewer in the ground than hand digging, and the roots are raised with less bruising or scratching of the skins than by any other method. These Ploughs have stood the test of many years experience, and the demand grows larger annually.

D, fitted as above, weight 1½ cwt.

D D, fitted as above, weight 1¾ cwt.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomitting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
